

# IPMA 16th World Congress on Project Management

## Making the Vision Work!

4-6 June 2002 - Berlin Germany

---

### Obtaining Copies of Papers

1. To obtain copies of any of the papers/presentations a photocopy/copyright declaration must be completed for each request. Multiple requests cannot be made on a single form.
  2. Requests for copies can be made online at [http://www.aipm.com.au/html/General\\_Photocopy\\_Declaration.cfm](http://www.aipm.com.au/html/General_Photocopy_Declaration.cfm)  
The request form can also be downloaded from the AIPM website at <http://www.aipm.com.au/resource/photocopydec.pdf>
  3. To indicate the paper you wish to receive you only need to indicate the request is from IPMA 17, the section heading and the paper number, e.g. IPMA 17-Plenary/Forum-1 or IPMA 17-Stream 5-3. You do not need to include the full title and author of each paper you request
  4. Those papers marked with a \*\* are not available from the AIPM as the full text was not included in the conference proceedings. Those papers with (PP) after the title are in PowerPoint format
  5. Should you have any questions or comments please send them to the IRC Manager [irc@aipm.com.au](mailto:irc@aipm.com.au)
- 

### Keynote Speakers

1. **\*\*Why efficiency needs to be supplemented by creativity in design, in simplification, in effectiveness, in problem-solving and team work**  
Dr Edward de Bono
2. **\*\*A long term view of project management - its past and likely future**  
Dr. Martin Barnes
3. **\*\*Learning project management by example**  
Dr. Tom DeMarco
4. **The project management maturity model (PP)**  
Dr Harold Kerzner
5. **\*\*Managing the exploration of space**  
Dr Bernard A. Harris Jr

### Plenary/Forum

1. **The major challenges of Euro cash changeover project (PP)**  
Antti Heinonen
2. **The evolution of PM: status and trends (PP)**  
Thomas Baumann, et.al
3. **Discovering new horizons in project management**  
Prof. Adesh Jain
4. **\*\*The future of project management: results of an international expert survey**  
Prof Dr Heinz Schelle, et.al

### Stream 1: Information Technology, New Media and Telecommunications

1. **\*\*The challenge of new technology projects in dynamic organizations**  
Dr Josef Stock
2. **A paradigm shift from a ministry to a full service provider: establishing project-oriented key units**  
Dr Martina Huemann, et.al
3. **Introduction of business excellence in a telecommunications operation (PP)**  
Peter Goettel
4. **Integrated and real-time cost and schedule management for large construction projects - the example of the ICE-railway track Nuremberg - Ingolstadt**  
Prof Dr martin Fischer
5. **New world methodology for deploying new world technologies (PP)**  
Ralph Simpson
6. **Same procedure as last year?! Project management in e-business projects**  
Claudia Koehler

7. **Soft success factor communication within global projects**  
Dr Roland Kometer, et.al
8. **Project management at a larger IT company - a sense of community**  
Erik Hamburger, et.al
9. **The development of modern project support capability**  
Prof Dr Peter Morris, et.al
10. **Importance of programme control in a new economy company - programme performance management based on a programme management cockpit (PP)**  
Oliver F. Wilde

## Stream 2: Biotechnology, Chemicals and Pharmaceuticals

1. **\*\*Design and construction of Genetech's Founders Research Center II: Complexities of leading design-construction projects of biotechnology laboratory projects**  
Melody A. Spradlin, et.al
2. **A complexity analysis model for management of good manufacturing practice and ISO 9000-2001 compliancy simultaneous projects**  
Prof Massimo De Falco, et.al
3. **From strategy to program and program to project: critical links**  
Dr Francis Hartman
4. **Project portfolio management as a means to manage important systemic connections between biotech projects**  
Prof Dr Karlos A. Artto, et.al
5. **The design and implementation of project management processes in a small chemical company**  
Dr Denise Ann Bower, et.al
6. **Time to market pharmaceuticals**  
Emile Burnaby Lautier
7. **Development of competences as a project-oriented company: a case study in the chemical industry**  
Dr Martina Huemann, et.al
8. **How to boost productivity through web enabled project resource management (PP)**  
Harald Geimer, et.al
9. **Decision taking in complex innovation processes (PP)**  
Dr Juergen Henrich
10. **Co-developments of two different Bio-Technology products (PP)**  
Dr Gillis Ponterius

## Stream 3: Automotive Industry

1. **Changing times in the automotive industry**  
Reinhard Kruschwitz
2. **How can we improve project working in car electronics R&D?**  
Dr David Vasak, et.al
3. **Managing diverse project management maturity across partners – lessons learned from the automotive industry**  
Paul Major
4. **Extended opportunities: improving delivery performance by a new factory and innovative production management**  
Prof Dr Nicolas P. Sokianos
5. **Global project organization best practices (PP)**  
Jorge Ortiz
6. **World-wide implementation of PM office network on corporate and divisional level (PP)**  
Dr Olaf Pannenbaecker
7. **The introduction of project management standards as "whole-scale change" process**  
Dr-Ing Joerg Longmuss, et.al
8. **Flexible project-oriented network organizations: the case study of Slovenian National Toolmakers Industrial Cluster**  
Dr Brane Semolic
9. **Multi-project control panel (MCP) – effectiveness and efficiency in multi-project environment (PP)**  
Mark Hiller, et.al
10. **Control and optimization of R&D departments using (project) portfolio management**  
Gerald Mischke

## Stream 4: Financial Services

1. **The new Basel Accord and the impact on financial information technology project risk management**  
Scott Webb, et.al
2. **The programme management maturity model (PP)**  
Geoff Reiss
3. **Managing foreign aid projects – the EU pre-accession aid to Hungary**  
Eva Riis
4. **New horizons in qualification – project simulations**  
Alexander Scheel
5. **\*\*Harnessing change to your advantage**  
Malcolm Innes
6. **Euro projects: unproductive investment or a chance to make PM more professional? A success story**  
Marianne Utendorf

7. **Project managers as catalysts in international mergers: dealing with cultural differences in the Nordic financial sector**  
Merete Barstad, et.al
8. **The application of programme and project management in a procurement environment**  
Graham Bosman, et.al
9. **Supporting project leaders within an IT-department of a financial service company – a little success story powered by partnership (PP)**  
Slobodan Jerala, et.al
10. **It has to be done – budget reduction as a project office task – Lessons learned from the financial services (PP)**  
Dr Eric Schott

## Stream 5: Innovation and Competence in Project Management

1. **Project management in a global environment**  
Prof Bernd Madauss
2. **Creating the best through expecting the worst – a creative approach to project management**  
Dr Peter J. Rutland
3. **Improve your project performance – use projectivity indicators**  
Per Frank Povlsen
4. **Projects comparing technique – fundamentals under Excel**  
Erwin v Wasielewski, et.al
5. **Competitive risk and project risk in the bidding phase: a knowledge engineering based approach**  
Prof Franco Caron, et.al
6. **Project management: a systemic vision to face the challenges that projects of anew era imply**  
Christial Riviere
7. **Improving project performance through the PMO. A real case**  
Alfonso Bucero
8. **Successful programme management or managing successful programmes (PP)**  
Alan Harpham
9. **Professional project portfolio management**  
Prof Roland Gareis
10. **Managing risk in a large multi-discipline project: the new baggage handling system at Schiphol Airport**  
Huub van der Wouden, et.al
11. **Particular project management for major railway projects**  
Prof Dr-Ing Konrad Spang
12. **Entrepreneurial project preparation – the earliest PM-Phase of industrial development**  
Werner Gruetzner
13. **Edward de Bono's six thinking hats – a proven creative thinking concept for project management (PP)**  
Kathleen Myers, et.al
14. **Learning systems: enabling post graduates to effectively manage multicultural virtual project teams**  
Dr Cornelia Veil
15. **PMI's organizational project management maturity model**  
Ralf Friedrich
16. **Management system improvement as a key item to successful project execution and enterprise development in Russia**  
Dr rer pol Artem Alsehin
17. **Making friends in the global village – six steps to a successful cross-cultural communication in future economics**  
Alexandra von Bose, et.al
18. **Making the vision work using reality-based project management**  
Jouh Tuman Jr, et.al
19. **Communication and knowledge in virtual projects – technological or psychological challenge?**  
Prof Dr J. Felix Hampe, et.al
20. **Project work and teamwork: a project identities model**  
Victor Sohmen
21. **Project management via the internet (PP)**  
Remco Meisner
22. **NASA's e-learning simulations – training for the future (PP)**  
Dr Edward J. Hoffman, et.al
23. **Project controlling, conflict management and arbitration in building contracts with functional specification**  
Norbert Mittelstaedt, et.al
24. **When conflict becomes litigation: an analysis of court rulings in project management (PP)**  
Dr R. Findlay Johnston, et.al
25. **Leading of project teams – management of contradictions**  
Prof Dr Gerold Patzak, et.al
26. **IP NEMA: International project activities – new experiences, methods and approaches**  
Gissou Assmann
27. **Project simulation – simulation of project excellence possibilities of simulating projects considering project excellence criteria**  
Prof Gian Coray, et.al
28. **Systemic organization and structural analysis within project management**  
Ulrike Holzberger

## **International Project Management Award 2002 Finalists**

1. **Alliance, an excellent solution to meet project execution challenges (PP)**  
H.K. van Wieren, et.al
2. **Reorganisation of transsystem to a POC for the re-inforcement of the customer focused market (PP)**  
Stanislaw Sroka
3. **Partner**  
Winifred Speuser
4. **\*\*Traveling through the air with a gigantic project**  
Thomas Brunschede
5. **\*\*The project management concept of the Lehrter Station**  
Andreas Benckert, et.al

## **Special Interest Group (SIG) Sessions**

All of the papers from the conference SIG sessions are available from the IPMA Conference web site. Please follow this link if you wish to see a full list of papers or to obtain copies - [http://www.worldcongress.de/sig\\_papers.php3](http://www.worldcongress.de/sig_papers.php3)
